SECTION 1

Secure One Overview

At Symantec, partners are essential to the success and growth of our business. We live in a culture of building strong partnerships by striving to execute a shared, focused and purposeful strategy to provide unsurpassed value to our partners. Today, Symantec stands as a fully-integrated company with a comprehensive Enterprise security portfolio delivered to our mutual customers by one Symantec partner community.

Secure One is built on a foundation of competencies enabling you to deliver an exceptional customer experience and helping you drive new growth for your business. Progress up the tiers as you continue to grow your new business and to develop your expertise in Symantec’s comprehensive portfolio of products and services. Symantec and the Secure One team are committed to making you successful and helping you prosper by doing what you do best.

Easy to Navigate

With just two competencies and four partner tiers, you’ll quickly start earning rewards.

Aligns to your Business Model

We’ve built flexibility into the program so you can easily move up the metal tiers to Platinum, whether you are an expert in one security field or sell a variety of solutions to multiple customer segments.

Covers Entire Portfolio

The Secure One program recognizes and rewards the total value of your combined Symantec Enterprise business, and now you have more opportunity to cross-sell and upsell.

Manage your Business More Efficiently

With front-end discounts* you have better visibility of expected profitability. You get an immediate margin, at the time the deal closes.

More Opportunities to Earn

You can now earn full Opportunity Registration on non-standard deals, you can apply for development funds**, protect your renewals**, and earn a Performance Rebate** tied to specific sales plays, depending on eligibility and status.

*Symantec will provide sufficient discount to the participating Distributor to enable them to provide you with an additional recommended discount on closed deals approved via the Opportunity Registration portal or Margin Builder Tool, as applicable. Any actual pricing will ultimately be as agreed between you and the Authorized Distributor

**Restrictions may apply

About this Program Guide

This Guide is intended for partners applying to Secure One, and is an integral part of the Secure One Agreement. Symantec may post or publish Supplements to the Secure One Guide that provide more information or terms on Secure One Competencies and benefits. This Guide and any subsequent Supplements are considered terms in Secure One. Some Supplements and other information may be specific to certain regions and/or partner groups. Symantec reserves the right, at our sole discretion, to decide when our posted fact sheets and program information may supplement or modify this Secure One Guide.

Please review this Guide carefully, along with the other Supplements to Secure One posted on PartnerNet. Together with the Secure One Terms, this Guide and the Supplements provide the terms of participation in Secure One. Please visit PartnerNet frequently for the most updated information and versions of this Guide. If you (on behalf of yourself or your employer) represent yourself as a Secure One member, or if you request, access, or use any benefits under Secure One, you are agreeing to the terms and definitions of this Guide under Symantec's then-current policies and Secure One enrollment terms.

SECTION 2

Executive Summary

Symantec places a high value on building strong relationships with our partners. We have the most comprehensive Enterprise security portfolio. Add to that our strong brand recognition and we are uniquely equipped to solve even the most complex challenges around the world, together.

Grow your security business and gain more rewards with Secure One.

FOCUSED: Designed for Partners Strong in the Security Market

Build upon your existing skills to extend your product delivery and services capabilities through Secure One Competencies. Competencies are specifically designed to better enable you to solve customers' security challenges from the smallest business to the largest enterprise.

EASY: Simple Requirements, Predictable Benefits and Rewards

Devote less time to managing your Secure One membership and spend more time on your customers. Secure One has simple, easy to understand requirements, benefits and rewards.

PROFITABLE: Sell More, Grow More, Earn More

Access financial and business benefits that payout when a deal is closed. Grow your business by reaching higher bookings and expanding your competencies. Increase your revenue with access to more opportunities than ever before to incrementally earn more.

SECTION 3

Secure One Structure

The Secure One framework offers you differentiated rewards based on the value you deliver to customers and your commitment to your partnership with Symantec. Secure One offers four membership tiers: Registered, Silver, Gold and Platinum. Each tier provides potential to increase your rewards and revenue as you grow with us.

Partners advance through the tiers by achieving Secure One Competencies that may require attainment of tier-specific bookings thresholds and solution-based certifications.

Secure One Tiers

Registered

As a Registered tier partner, you have taken the first step in building your partnership with Symantec. Registered tier within Secure One does not require a competency achievement.

Silver

As a Silver tier partner, you have exceeded the minimum revenue threshold in any one competency. Silver tier within Secure One does not require a competency certification achievement.

Gold

As a Gold tier partner, you have invested in your Symantec partnership through the achievement of the next level of revenue threshold requirements and at least one Gold Competency.

Platinum

As a Platinum tier partner, you are one of Symantec’s most invested partners and have achieved the highest level of performance in meeting increased revenue threshold requirements and at least one Platinum Competency.

Secure One Competencies¹

Competencies are the foundation of Secure One. They are designed to recognize and reward the expertise and value you deliver to your customers. There are two competencies in Secure One:

Core Security and Enterprise Security

Core Security Competency

Core Security includes the Symantec solutions that you typically sell in a volume transaction sale. We do not require certifications for the Core Security Competency, however, extensive modules of optional sales and technical training for each solution family within this competency is available for you to learn as much as you can to serve our mutual customers better.

Enterprise Security Competency

Enterprise Security includes solutions that you sell in a high-touch, solution sale. Because these types of sales require deep solution knowledge, we require certifications to sell solutions in the

Enterprise Security Competency, depending on the metal tier. To become a Gold partner, you must achieve a minimum of two certifications. To become a Platinum partner, you must achieve a minimum of three certifications. We have built flexibility into this requirement, so that you can align your technical training to your business model. You may choose to be certified in one single solution category, as an expert in that field or you may choose to be certified in multiple solution categories, as someone who sells multiple solutions to a variety of customer segments. The choice is yours.

Through achievement of Competencies, partners will have access to rewards and benefits based on the following criteria:

Capability

Symantec Certified Specialists (“SCS”) with technical sales capabilities that map to customer sales cycle. SCS certifications are required for the Enterprise Security Competency only.

*VIP B2E, SMS & Voice are part of Core Security Competency. VIP B2C is part of Enterprise Security Competency.
 ** Product solutions moved from Core Security into Enterprise Security Competency.

¹ Availability and requirements for each Competency vary. Please contact your regional Partner Program Manager for more details.

Secure One Competency Description

CORE SECURITY COMPETENCY

CORE SECURITY

Partners with the Core Security Competency demonstrate experience in delivering endpoint management and protection capabilities for traditional endpoints (laptops, desktops and servers) as well as modern endpoints (mobile devices and tablets).

ENTERPRISE SECURITY COMPETENCY

ENDPOINT AND DCS

Partners who sell Endpoint and DCS are recognized for their expertise helping customers address more advanced threats and targeted attacks across multiple control points, including endpoint, network and email.

Endpoint Management | Data Center Security

INFORMATION PROTECTION

Partners who sell Information Protection are recognized for their expertise helping customers protect and control access to their data wherever it is located: on premises, in transit, or in the cloud. They have visibility and control over how users are storing, accessing and sharing information.

Data Loss Prevention (DLP) | VIP B2C

CYBER SECURITY SERVICES

Partners who sell Cyber Security Services are recognized for their expertise in helping customers understand the strengths and gaps within the customer’s security program. Partners help their customers to strengthen their security posture and extend their current operations capabilities with better threat insight and faster detection and response capabilities across the entire attack lifecycle – before, during, and after an attack.

Managed Security Services (MSS) | DeepSight Security Intelligence | Incident Response

NETWORK SECURITY

These solutions partners who sell Network Security are recognized for their expertise helping customers with network security. The Network Security category requires partners to complete a set of compliance requirements and be certified for a deeply technical sale.

Secure Web Gateway | Network Performance Optimization | Network Forensics: Security Analytics | Cloud Application Security

SECTION 4

Secure One Benefits

Secure One offers benefits to partners based on both Competency and program membership tier. These benefits are designed to help you deliver solutions that customers trust, help you grow your business, and accelerate your success.

SECTION 5

Secure One Financial Benefits

Earn more rewards, expand your market footprint and grow your business with Symantec’s performance-based financial benefits.

More Benefits by Expanding Your Market Footprint

Gold and Platinum tier partners can enrich their investment with Symantec Partner Development Fund (SPDF), a benefit designed to enhance your growth and marketing initiatives through pooled development funds.

More Discount on SMB deals with Margin Builder*

Available through the Margin Builder Tool, eligible partners can earn a recommended additional discount for new business opportunity identification and closure on qualifying Core Security solutions. Availability may vary by region.

More Rewards with Opportunity Registration

Available through the Opportunity Registration portal accessed via PartnerNet, eligible partners can earn upfront discount for closed new business opportunities not forecasted by Symantec through

the enhanced Opportunity Registration benefit. Discounts may vary by region.

More Rebates by Growing Your Business

Platinum tier partners may be eligible for our Platinum Performance Rebate benefit. The rebate is focused on specific sales plays and requires partners to meet a specific growth target to receive the rebate. Restrictions may apply.

More Benefit by Renewing your Customers

Silver, Gold and Platinum tier partners get a discount advantage each time they renew their customers. Restrictions may apply.
