NAS

SATA SSD PRODUCT FLYER

## IRONWOLF 110 SSD PURPOSE BUILT FOR NAS

Seagate® IronWolf™ 110 SSD solutions are designed for NAS environments that need superior reliability, RAID performance, and power management.

AgileArray™ firmware keeps your NAS enclosure maximized for 24x7 and multi-user environments. DuraWrite™ technology allows for increased performance and reliability.

SATA SSD PRODUCT FLYER

# Optimized for NAS AFA

Harness a best-in-class SSD optimized for NAS all-flash array (AFA) or Cache Tiering.

Key Features	IronWolf 110 SSD	Competitor
Capacity	240GB, 480GB, 960GB, 1.92TB, 3.84TB	256GB, 512GB, 1024GB, 2048GB, 4096GB
Sequential Read/Write Performance	Up to 560/535MB/s	Up to 560/530MB/s
Power Loss Data Protection	Yes	No
Drive Writes Per Day	1	.6
Highest Endurance	Up to 1750TB written	Up to 1200TB written
NAS Optimized	AgileArray optimized for NAS	General firmware
MTBF	2M hrs	1.5M hrs
Drive Monitoring	IronWolf Health <sup>1</sup>	No
Data Recovery	2 years	No
Limited Warranty	5 years	5 years

When referring to drive capacity, one gigabyte, or GB, equals one billion bytes and one terabyte, or TB, equals one trillion bytes. Your computer's operating system may use a different standard of measurement and report a lower capacity. In addition, some of the listed capacity is used for formatting and other functions, and thus will not be available for data storage. Actual data rates may vary depending on operating environment and other factors, such as chosen interface and drive capacity.
